ABOUT HEATHER

Heather Walraven is a seasoned financial advisor and certified Kingdom Advisor who helps high-net-worth clients find peace—not just performance—in their financial lives.

After nearly drowning as a child, Heather avoided water for decades. At age 44, she became a certified scuba diver—an emotional transformation that mirrors the same fear-to-freedom process she now facilitates with clients facing financial anxiety.

Through her book *Dropping F-Bombs*, Heather shares how mastering fear, strengthening faith, and shifting mindsets can lead to profound peace in both life and money.

She is known for blending financial expertise with emotional intelligence, faith-centered coaching, and compassionate storytelling.
