GAME FEATURES

As with all Fire Blaze games, Golden Macaque includes both the Hold and Respin feature and an additional unique bonus feature.

Six or more prize symbols in the main game triggers the Hold and Respin feature. The more prizes you win, the more respins you receive – fill all 15 prize slots to win the Grand Jackpot.

The Golden Macaque is a special symbol in this round, representing a prize equal to all standard prizes already revealed. If the player has landed a jackpot symbol, or scores a second Macaque symbol, they may get extra lucky, with the first prize or jackpot amount also be added.

Additionally, three or more Scatter symbols triggers the Gong feature, where players can either win six free games or trigger the Hold and Respin feature.
