## EVERYBODY'S JACKPOT GAME SHOW

### GAME IN SHORT

Welcome to **Everybody's Jackpot** – the live slot game where everyone's a winner! Players can spin to win one of two progressive jackpots – the guaranteed Daily Jackpot, with a special window offering a greater chance of winning, and the Grand Jackpot, guaranteed to win before the maximum amount is hit. When a lucky player triggers the jackpot, they win 50% of the prize pot, with the other 50% shared between the other players – meaning the jackpot really is everybody's.

With four different in-game features, Everybody's Jackpot delivers the perfect combination of varied, engaging gameplay and great win potential.

### KEY FEATURES

#### FREE GAMES

Pick either row two or four. Each winning combo starting from the selected row is multiplied by three. Five spins in total.

#### WALTER'S BUBBLE BAR

On a 4x4 grid, images of Walter the Caterpillar fall into place. The number of icons is then added together. Walter blows three bubbles, with Multipliers of up to 25x, boosting the total amount of icons collected.

#### PICK ME PLAZA

On a 5x5 grid, slushy icons appear at random. Each unique icon represents a different Multiplier. The tiles are turned around and shuffled and players now blind-pick three tiles.

#### THE BLOCK

Players navigate their way around a 3D block with four 3x3 grids featuring different Multiplier values, ranging from x1 to x4,000.

## GAMEPLAY IN BRIEF

### BASICS

The main game consists of 5x5 reel, with adjacent bet ways win evaluation. Only three adjacent symbols are needed to form a winning combination, and only the longest winning combination along the path of symbols is paid out.

Also, the Main Game has a Wild symbol. The Wild symbol can substitute for any of the symbols except Scatter. You need to get 3, 4, or 5 matching symbols to form a winning combination. All winning lines and combinations are highlighted.

### BONUS GAMES

Three Scatter symbols on the reels trigger one of the four bonus games: Free Games, Walter's Bubble Bar, Pick Me Plaza or The Block.

At any point in the main game, the jackpot can be triggered. When it triggers, the main game stops and the celebration begins! All jackpot game participants are divided into groups, with one group chosen and the others eliminated. Players in the chosen group are divided into smaller groups, and the elimination process continues until only one lucky player remains. This player takes 50% of the prize pot, with the remaining winnings shared out within the wider playing community – proportional to every player's bet.

## UI SPECIAL FEATURES
