

CIRCUS LAUNCH™

INDUSTRY'S FIRST RNG CRASH GAME

PLAYTECH

CIRCUS LAUNCH™

Launch your Astro-Nut to the stars and beyond – and predict when the rocket will explode to collect a multiplier of up to 5000x in new Circus Launch™!

Building on key trends in the gaming industry, Circus Launch™ is Playtech's first "crash" style game – an innovative mechanic in which players guess when they have the best chance of scoring a big win. Players choose which of five Astro-Nut characters to launch into space, with a multiplier building on screen as they soar upwards.

When the player hits Collect, they receive the multiplier shown on screen – but to win, they need to Collect before the rocket explodes and the crash ends the round.

Choose Collect or Collect Half

Players can hit Collect at any time in a round, or choose Collect Half to receive the on-screen multiplier based on half their bet, leaving the other half available to play with in the next round.

Auto Collect

Players can set prior to launch a multiplier level at which they will automatically collect on their bet.

Re-bet and Launch

Players can start a new round using their previous bet settings with a single click.

With an engaging and unusual “space circus” theme to match the innovation in gameplay, plus the clear attraction of a big potential win, Circus Launch™ offers something unique in online gaming, creating an opportunity to appeal to a different audience.

Seasonal skins

Circus Launch™ features a choice of six different modifiers, making it the ideal game to promote all year round, building on the demand for seasonal content.

Golden Chip compatible

Use Playtech’s Golden Chip bonusing tool to reward and engage players, or build specific promotions to encourage cross-sell from Casino – for example, five Golden Chips for use on Circus Launch™ with any deposit of £20.
