

PLAYTECH CASINO PRESENTS
THREE WAYS TO PLAY
FIRE BLAZE™ CLASSICS,
MEGA AND GOLDEN

Three distinct formats; one powerful overarching brand.

Explore the power of Playtech's Fire Blaze™ Jackpots suite, complete with two exciting new variants

Hold & Respin with unlockable extra rows.
Special symbols unlock up to 6 extra rows.
The final rows offer extra rich prize opportunities.

The Original Fire Blaze™ game series rebranded with the "Classics" logo.
Classics includes hits like Sky Queen™.
More classics are planned for 2021 and beyond.

6 BELLS trigger the Hold & Respin Bonus.
Every held BELL offers a cash prize that pays again when a new BELL lands.
Adds some volatility to the Hold & Respin.

Since launching in 2019, the Fire Blaze™ Jackpots series has become one of the most popular slot games brands in the industry, building a loyal fan base and with a proven record in driving player retention. Now, the Fire Blaze™ brand offers three different ways to play, with the launch of two new formats, Mega Fire Blaze™ and Fire Blaze™ Golden, alongside the new rebranded Fire Blaze™ Classics collection.

About Fire Blaze™

The core Fire Blaze™ concept combines classically appealing themes with feature-rich gameplay, backed by an engaging central mechanic – Hold and Respin. Six or more bonus symbols in the main game triggers the Hold and Respin round, where all initial prizes are held, with players having three more respins to win further prizes. Each win resets the respin total, with the round only ending after three losing spins. If a player fills all spaces on the grid, they win the Grand Jackpot.

From January 2021, all original Fire Blaze™ games are rebranded as **Fire Blaze™ Classics**, creating clear differentiation between the three Fire Blaze™ formats. New titles will continue to be released under the Classics banner, beginning with aquatic fantasy Pearls Pearls Pearls™, building on the appeal of the original format and retaining regular, long-term players.

In **Fire Blaze™ Golden**, Hold and Respin prizes not only lock in the feature round – they also repay on each winning spin, including Major, Mini and Minor Jackpot prizes. Adding volatility and fantastic win potential to the feature round, Fire Blaze™ Golden has clear appeal for experienced players. Having begun with the vibrant Amazing Factory™, the series continues with the pirate-themed Buccaneer Bells™.

In **Mega Fire Blaze™ games**, the Hold and Respin feature gets a boost with up to six extra unlockable rows, creating a mega grid. If players are lucky enough to unlock all rows, there is even greater prize potential at the top of the grid with win-boosting multipliers. Successfully launched in late 2020 with the jungle-themed Legacy of the Tiger, the series continues in 2021 with an Egyptian adventure, Khonsu: God of Moon™.
