ENGAGE

Lower volatility games offering smaller, but more regular wins, with a range of and/or frequently triggering features. These games are typically acquisition titles, designed to create variety and excitement for new players.

PURSUIT

Features and wins occur less frequently in Pursuit games, but are typically more lucrative when they do; as such, these higher volatility slots appeal to more experienced players happy to wait for feature rounds and big wins.

BALANCED

Games with a more medium volatility feel, usually offering some feature variety and less frequent, but generally bigger, wins than Light games. Balanced games are likely to appeal to slightly more experienced players, offering less playing time for the same money, but a greater chance of bigger wins.
