BLOCK THE ABSORPTION OF STARCH AND SUCROSE FROM YOUR FOOD, SO YOU DON'T HAVE UNNECESSARY WEIGHT GAIN!

A moment on the lips, a lifetime on the hips ... not anymore! For the moments when carbs happen, Sugar Stop can help.

Its four active ingredients have been shown in clinical studies to help block carbohydrate absorption to prevent added weight gain and keep you feeling full and satisfied.

How *Sugar Stop* Works

*Without
Sugar Stop*

Eat meal

Sugars are broken down by sucrase so they can be absorbed into the blood stream

Carbs are broken down by amylase so they can be absorbed into the blood stream

Broken down sugars and carbs are absorbed along the small intestine

*With
Sugar Stop*

Drink Sugar Stop

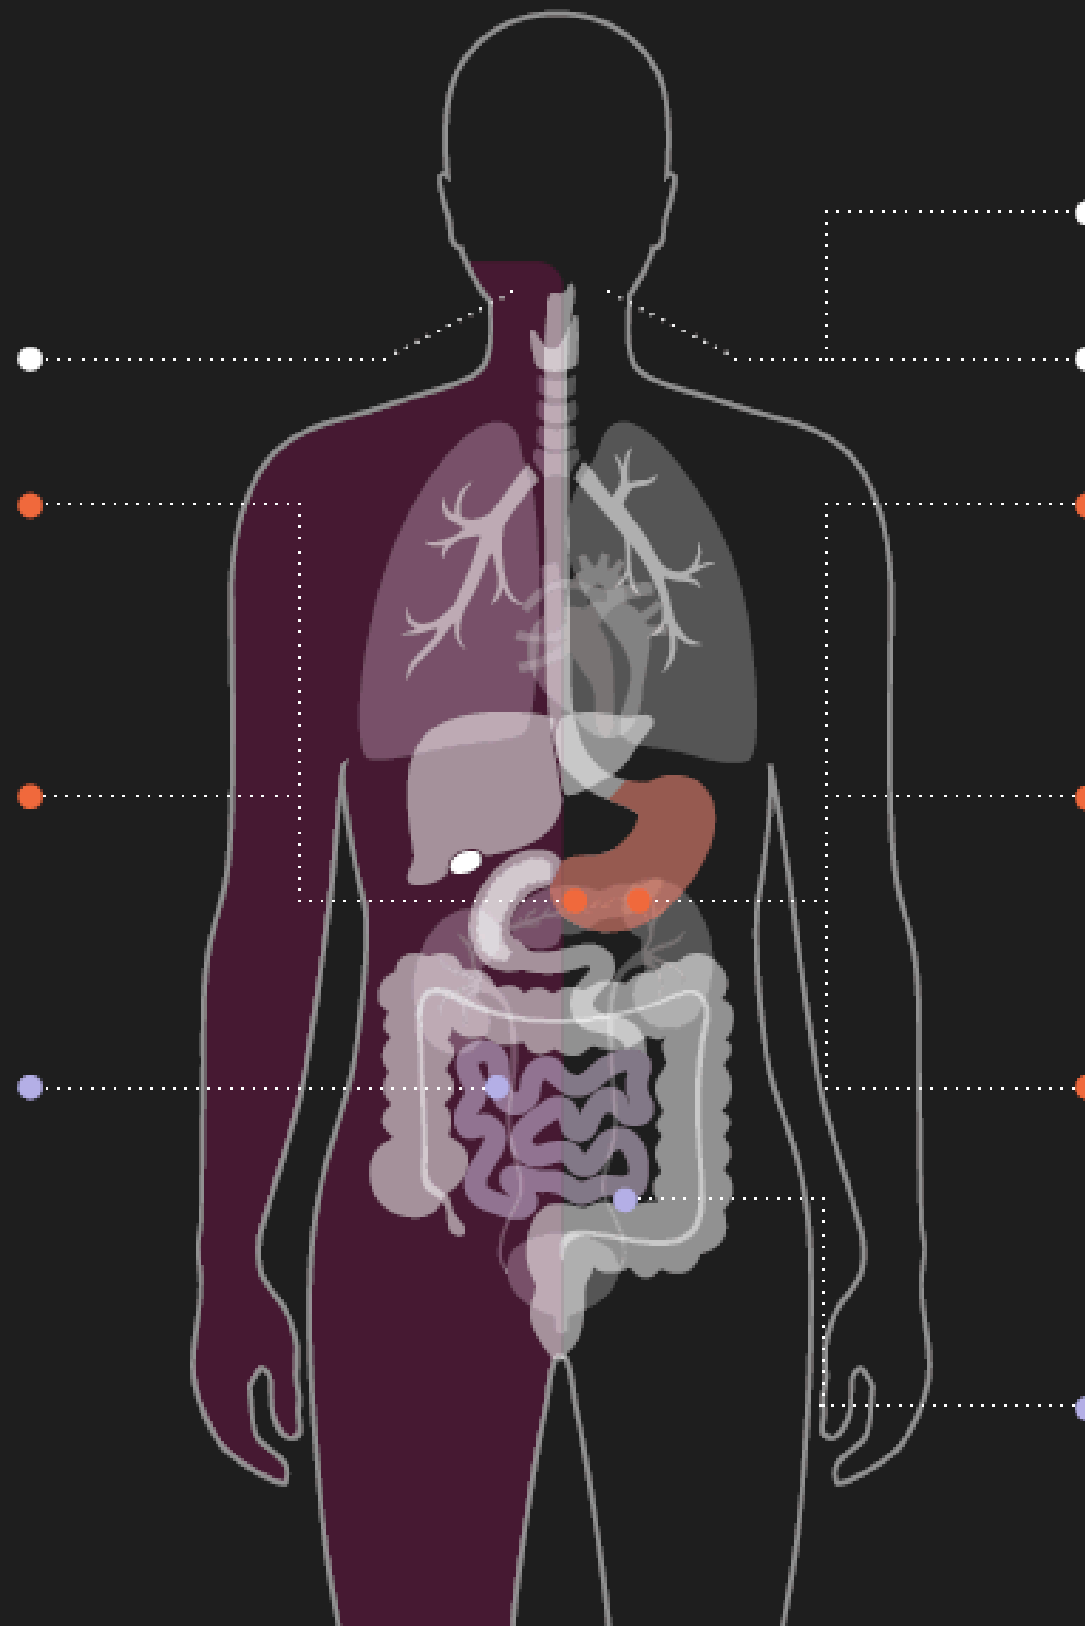

Eat meal

L-arabinose helps intercept sucrase activity so up to 20% of sucrose is not absorbed

White kidney bean extract helps intercept amylase activity so up to 40% carbs are not absorbed
